SUMMARY

Full Stack Developer with 1 year of experience in building and maintaining web applications using Angular, Node.js, MySQL, MongoDB, and JavaScript. Proficient in frontend development, backend API integration, database design, and application optimization. Strong problem-solving abilities with a focus on developing scalable, high-performance solutions. Committed to continuous learning and delivering quality software that meets business requirements.

TECHNICAL SKILLS

Programming Languages: JavaScript, SQL,Python

Frontend: Angular, React,HTML5,CSS3,Bootstrap

Backend: Node.js, Express.js

Database: MySQL, MongoDB ,SQL Server

Tools: Visual Studio, VS Code, GitHub, Git, Postman

Concepts: OOP, APIs, Authentication (JWT), Data Structures & Algorithms

EDUCATION

B.Tech in Computer Science and Engineering — Thrissur, Kerala
Government Engineering College Thrissur — *June 2021 – June 2024*

Diploma in computer engineering — Kalamassery, Kochi
Government Polytechnic College Kalamassery — *June 2018 – June 2021*

EXPERIENCE

Junior Full Stack Developer — July 2025 – Present
UFS Technologies — *Kochi, Kerala*

- Developing and maintaining full-stack web applications using Angular, Node.js, MySQL, and REST APIs.
- Designing and implementing scalable backend services, database procedures, and API integrations.
- Building responsive and user-friendly frontend interfaces with Angular.
- Optimizing SQL queries, stored procedures, and application performance.

MEARN Stack Intern — sept 2024 – May 2025
Luminar Technolab — *Kochi, Kerala*

- Developed web applications using MongoDB, Express.js, Node.js, Angular, and React.
- Built and integrated RESTful APIs with frontend applications.
- Collaborated with team members using Git version control
- Applied problem-solving, debugging, and code optimization techniques

PROJECTS

24 Study Abroad – Student & Lead Management Platform

Angular, Node.js, MySQL, REST APIs

- Developed and maintained a full-stack web application for managing student enquiries, admissions, and follow-up processes.
- Built responsive Angular interfaces and integrated them with Node.js backend APIs.
- Designed and optimized MySQL queries and stored procedures for efficient data management.
- Implemented dashboard reporting, lead tracking, and role-based access control features.

Solaris – CRM & Business Management System

Node.js, MySQL, REST APIs

- Developed backend APIs and business logic for CRM and workflow management modules.
- Created and optimized MySQL stored procedures and complex database queries.
- Implemented lead management, follow-up tracking, and reporting functionalities.

Nearest Hospital Management System

React.js, Node.js, Express.js, MongoDB, REST APIs

- Developed a full-stack hospital management platform that enables users to find nearby hospitals and book appointments.
- Implemented location-based hospital search using geospatial coordinates and distance calculations.
- Built modules for hospital registration, doctor management, specialty management, slot scheduling, and appointment booking.
- Implemented role-based authentication and authorization for hospitals and users.

Cookipedia – Recipe Management Application

Angular, Node.js, Express.js, MongoDB, JWT, REST APIs, Bootstrap

- Developed a full-stack recipe sharing platform using Angular, Node.js, Express.js, and MongoDB.
- Built recipe management modules with create, update, delete, and advanced search functionality.
- Developed recipe categorization, filtering, and sorting features to improve content discovery.

  Implemented secure user authentication and authorization using JWT.

Automated Convertion of Hardcopy Data Forms into Structured Data

Python, OCR, OpenCV, Image Processing

- Developed a system to automate the conversion of hardcopy forms into structured digital data .
- Utilized Optical Character Recognition (OCR) techniques to extract text from scanned documents and images.

CERTIFICATIONS & ACHIEVEMENTS

- MEARN Stack Development Training – Luminar Technolab
- Hackerrank - SQL (Intermediate) Certificate
